Public Schools

Snapshot Report

The National Assessment of Educational Progress (NAEP) assesses reading in three content areas: reading for literary experience, to gain information, and to perform a task. The NAEP reading scale ranges from 0 to 500.

Overall Reading Results for Utah

- In 2005, the average scale score for eighth-grade students in Utah was 262. This was lower¹ than their average score in 2003 (264), and was not significantly different from their average score in 1998
- Utah's average score (262) in 2005 was not significantly different from that of the Nation's public schools (260).
- Of the 52 states and other jurisdictions² that participated in the 2005 eighth-grade assessment, students' average scale scores in Utah were higher than those in 18 jurisdictions, not significantly different from those in 11 jurisdictions, and lower than those in 22 jurisdictions.
- The percentage of students in Utah who performed at or above the NAEP Proficient level was 29 percent in 2005. This percentage was not significantly different from that in 2003 (32 percent), and was not significantly different from that in 1998 (31 percent).
- The percentage of students in Utah who performed at or above the NAEP Basic level was 73 percent in 2005. This percentage was smaller than that in 2003 (76 percent), and was smaller than that in 1998 (77 percent).

Student Percentage at NAEP Achievement Levels									
Utah (public)									
1998 ¹	23*	46	29	2					
1998	23*	46	30	1					
2002	25	43	30	2					
2003	24*	44	30	2					
2005	27	44	27	2					
Nation (public	:)								
2005	29	42	26	3					
Percent b	elow <i>Basic</i>	Percent at Basic, Pro	oficient, and Ad	dvanced					
■ Beld	ow Basic	Basic	Proficient	Advanced					

¹ Accommodations were not permitted for this assessment

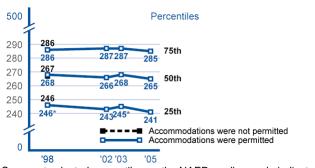

NOTE: The NAEP reading achievement levels correspond to the following scale points: Below Basic, 242 or lower; Basic, 243-280; Proficient, 281-322; Advanced, 323 or above

Performance of NAEP Reporting Groups in Utah										
Reporting groups	Percent of students	Average score	Percent below <i>Basic</i>	Percent of stude	ents at or above Proficient	Percent Advanced				
Male	49	255↓	33	67	22	1				
Female	51	269	21	79	36	4				
White	84	265↓	24↑	76↓	32	2				
Black	1	‡	‡	‡	‡	‡				
Hispanic	10	243	48	52	12	#				
Asian/Pacific Islander	3	266	23	77	31	4				
American Indian/Alaska Native	2	‡	‡	‡	‡	‡				
Eligible for free/reduced-price school lunch	33↑	254	36	64	22	1				
Not eligible for free/reduced-price school lunch	67	266↓	22↑	78↓	33	3				

Average Score Gaps Between Selected Groups

- In 2005, male students in Utah had an average score that was lower than that of female students by 14 points. In 1998, the average score for male students was lower than that of female students by 9 points.
- Data are not reported for Black students in 2005, because reporting standards were not met. Therefore, the performance gap data are not reported.
- In 2005, Hispanic students had an average score that was lower than that of White students by 22 points. In 1998, the average score for Hispanic students was lower than that of White students by 21 points.
- In 2005, students who were eligible for free/reduced-price school lunch, an indicator of poverty, had an average score that was lower than that of students who were not eligible for free/reduced-price school lunch by 12 points. This performance gap was narrower than that of 1998 (20 points).
- In 2005, the score gap between students at the 75th percentile and students at the 25th percentile was 44 points. In 1998, the score gap between students at the 75th percentile and students at the 25th percentile was 40 points.

Reading Scale Scores at Selected Percentiles

Scores at selected percentiles on the NAEP reading scale indicate how well students at lower, middle, and higher levels of the distribution performed.

The estimate rounds to zero.

‡ Reporting standards not met.

* Significantly different from 2005.

- ↑ Significantly higher than 2003. ↓ Significantly lower than 2003.
- 1 Comparisons (higher/lower/not different) are based on statistical tests. The .05 level was used for testing statistical significance. Performance comparisons may be affected by differences in exclusion rates across years for students with disabilities (4% nationally in 2005) and English language learners (1% nationally in 2005) in the NAEP samples. Statistical comparisons are calculated on the basis of unrounded scale scores or percentages.
- ² "Other Jurisdictions" refers to the District of Columbia and the Department of Defense Education Activity schools.

NOTE: Detail may not sum to totals because of rounding and because the "Information not available" category for free/reduced-price lunch and the "Unclassifed" category for race/ethnicity are not displayed. Visit http://nces.ed.gov/nationsreportcard/states/ for additional results and detailed information.
